ST. MONICO'S CHURCH, MIRROR

BUILT IN 1893 BY THE EARLY SETTLERS IN THIS PART OF AL-
BERTA—FIRST BUILDING ON THE PRESENT
TOWNSITE.

The following contribution was received too late for the first issue of THE MIRROR, but it will no doubt prove of interest to a good many of the new residents of Mirror as well as the early settlers in this part of Alberta:

"It seems only fitting that the first number of THE MIRROR JOURNAL should contain some account of St. Monica's Church, which is likely to become one of the historic buildings of Central Alberta. When some nineteen years ago the settlers around Lamerton formed a 'bee' for the purpose of erecting a church and selected the present townsite of Mirror as being the most central location, no one had the slightest idea that a railway would one day pass by the spot and a town be erected on the forty acres, which the government at that time granted to the first church built in any district.

It will, no doubt, be of interest to many to recall the names of the settlers who formed the 'bee' and erected the church. Several of them are still in the neighborhood, and the church with its little graveyard has many associations for them. There were the pioneer brothers, Mr. Edward and Mr. Walter Parbury; there was Mr. Math. Cook with his sons, W. D. and E. W. D. and Mr. F. H. D. and still with us and staunch supporters of the church. There

were besides G. Elliott, D. Drott, V. Nice, M. Jarvis, N. Jarnet, B. Bullock, T. Gadsby, J. Taylor, F. Sykes, H. Hawkins, B. Hawkins, P. Smith, B. Jost, B. Craft and others as well—a veritable army who set to work and put up the little log church in the year 1893. Rev. Goodman was the clergyman leaving afterwards to do missionary work in Alaska. Later, by the generosity of Mr. Woodcomb, of England, who subscribed \$250.00 the church was plastered within, and boarded and painted without. It is in good condition and looks as though it could easily last many years yet. The fence has however been seriously damaged and it is expected that before long another 'bee' containing some of the original builders may be formed for the purpose of repairing it and protecting the graveyard from the cattle.

The church still owns one acre and it is hoped that it may be possible to turn the whole into a graveyard."

The Bishop has now appointed Rev. O. Creighton, M. A., of Alix, as priest in charge of the parish. Services are held at 3 p. m. on the second Sunday and 11 a. m. on the fourth Sunday in the month. Everyone, it is needless to say, is welcome at the church. The church wardens are: Mr. Math. Cook and Mr. Goster.

MIXED FARMING FOR ALBERTA

A. W. Foley, poultry expert of the department of agriculture at Edmonton, addressed an institute meeting of the St. Peter District Agricultural society in that town last Friday evening. Henry Heaton, vice-president of the association, presided over the meeting and introduced the speaker.

It had been arranged for G. H. Hutton, superintendent of the Dominion experimental farm at Lacombe, to address the meeting on "Live Stock on the farm," but on account of death in his family he was unable to attend.

However, the meeting was a profitable one. Mr. Foley's remarks were of a general nature, and of intense interest to farmers. He strongly urged diversification of farming, saying that he had always contended that any one line of farming was not profitable on all. He deplored the fact that Alberta had all sorts of feed this year, with practically nothing to feed, and that many farmers were raising grain alone, shipping to the east to be fed to live stock, and shipped back to Alberta.

He contended that if it was a profitable business for Ontario farmers, it certainly should be more so for farmers in Alberta. As a mixed farming country, he knew of no better than Central and Northern Alberta. He also cited that the prairie provinces were importing millions of dollars in produce every year, and that last year Alberta imported a half a million in eggs and poultry alone. He said that Alberta not only possesses an excellent home market, but was so situated geographically

that no one could get the advantage of her in the splendid British Columbia market. He sought to impress the importance of the farmers producing a superior article for the markets. Mr. Foley's address was well received.

DOMINION ELECTION RETURNS

Official figures show the Conservative majority at the recent election to have been over 30,000 from 215 out of 221 constituencies in Canada.

Following is the vote for each province:

	Conservatives	Liberals
Ontario.....	264,487	203,540
Quebec.....	157,393	168,446
Nova Scotia.....	55,228	57,793
New Brunswick.....	34,880	40,194
Pr. Ed. Island.....	14,638	13,968
Manitoba.....	(incomplete) 28,472	27,887
Saskatchewan.....	34,700	52,924
Alberta.....	(incomplete) 10,558	15,296
Br. Columbia.....	25,662	16,350

Total.....626,248 506,038
The total vote is well over one million two hundred thousand.

LAND SHOW AT CALGARY

A great deal of interest is being centred in the land show at Calgary, which opened last week and will continue until Nov. 18th. Flowers, grain, machinery and other exhibits are attractively displayed in booths, and an advertisement should prove of great benefit to the country.

Calgary is the first city in the Dominion to inaugurate a land show, which will compare

most favorably with similar shows held in the larger cities of the United States, and once again it has been shown that the western cities are leading in the advancement of advancement and prosperity.

Some of the best known specialists in the country have been brought to Calgary by real estate men and other exhibitors to set as representatives at the show, and through their efforts, together with actual exhibits of the entrants, the visitors to the land show are enabled to become familiar with the innumerable resources of the Province of Alberta.

The Bank of Hochelago will erect a new building in Edmonton.

India is now suffering from a horrible plague, and in one week the deaths numbered 6,007.

Do you know that an editor or a reporter for a newspaper can stop and ask a hundred people "what's the news?" and in ninety cases the person asked will reply "Nothing special." Yet probably fifty out of them know something which if not found in the next issue will astonish them, and maybe disappoint them. Don't be afraid to let the newspaper man know the little items.

MIRROR, ALTA., NOV. 16, 1911

A GREAT COUNTRY

Lord Charles Beresford, who had been on a visit to Canada since the beginning of August, was too busy seeing Montreal before sailing to spare much time for an interview, but in the traditional bluff and breezy way of what he calls "the old sea dog," he had a few opinions to express. Enthusiasm for Canada was his main topic. "Best country in the world," he declared; "splendid people. Can't stop to tell you why," he added. "See me later; but, stay half a minute. This is the country for closer acquaintance with the country and the people, and also to see into your financial projects. And do you know what I am going to do as a result of my visit? I'm going to scrape up every penny I own, and spend it over here for investment. I've been all over the country this time, from Montreal to Vancouver, and I say again it's the best country in the world."

WHY ITALY AND TURKEY ARE AT WAR

If readers will bear in mind one or two things they will understand why Italy so readily as it appears on the surface declared war against Turkey over Tripoli. A glance at the map shows that Tripoli lies at the door of Italy. Then Tripoli is part of Africa, and that continent seems destined to be wholly carved up among the European nations. In fact, it is difficult to find any very large area in the "dark continent" which is not considered in the sphere of influence of one or other of the European powers. When in 1888 at the close of the Balkan difficulties and a Mediterranean embroglio, Europe arrived at a sort of mutual agreement about the Balkans and Mediterranean coasts, Italy was allotted Tripoli, but with the understanding that Turkish suzerainty should be maintained. Turkey, however, was not to fortify or garrison the coast towns beyond the necessary troops for maintaining order. This latter clause was, of course, sure to lead to trouble, for Tripoli is a turbulent State, and Turkey, fearing that the Moroccan trouble would involve further encroachments on the African domain of the Ottoman Empire, began pouring troops into Tripoli. This was the immediate excuse of Italy for declaring war, although, of course, there were other contributory causes.

Italy, of course, has to fight for her own hand. Yearly she loses thousands of her people through emigration. They come almost exclusively to this continent, and are the only ones to be seen here. Italy secures the absolute control of Tripoli, in the course of

a few years she hopes to turn the emigration into that country, and thus keep her sons convenient to their own land. They would, in addition, have the experience of being constantly in face of danger, for every emigrant to Tripoli would be enrolled as a volunteer for years to come.

With Tripoli and its seaports under her control, Italy hopes also to thus control a large slice of this ever-increasing African trade, and perhaps, get a slice of the undivided African hinterland. She tried once, not so many years since, to secure control of Abyssinia, but was defeated. She will spend the blood of her sons and the money of her treasury freely to secure control of Tripoli, but there seems some doubt at present about her eventual success.

ANTELOPES FOR WAINWRIGHT PARK

Antelopes, numbering half a score, were shipped by freight to Wainwright, from the south a few days ago. The animal have been secured from Charlie Blazier, of Brooks, Alberta, by Parks Commissioner Douglas for the buffalo park at Wainwright. They were captured last Spring in the vicinity of Brooks, and are all full grown and sturdy specimens. They will be added to the herd of nine which was placed in the buffalo park last fall.

By degrees, herds of moose, deer and antelope are being added to the herd of a thousand buffalo gathered in the last few years by the department of the interior, and which has made Wainwright park famous as one of the greatest animal enclosures in the world. One-half the captive buffalo in the world are to be found in the buffalo park at Wainwright. It is expected that close to a hundred head will be added to these when the final roundup of the Pablo herd in the Foothills mountains of Montana has been made by Charles Atliard. By natural increase, the Wainwright herd in a few years should number several thousands of bison and hundreds of head of moose, deer and antelope.

'BUFFALO BILL' RETIRES

Col. W. F. Cody, "Buffalo Bill," has retired from active life. His show has been packed off to winter quarters and his Indians will return to their tepees in what is left of the Red Man and, while "Buffalo Bill" intends to spend his remaining years in the west, where he helped to make American history. So far as public exhibitions are concerned, he has shot the ashes from the last cigar and chased the last Indian.

During a career which began as a pony express rider, led him through more Indian battles than any living white man and included 28 years as showman, Col. Cody became known as one of the most picturesque figures on American soil. His sobriquet, "Buffalo Bill," he earned in the early 60's, when he contracted to furnish buffalo meat to the laborers on the building of the Kansas Pacific railroad, and in less than eighteen months he killed 4,280 bison.

Some men can leave an eight-pound bowling ball half a block for four hours a night, and yet find a loaded coal shovel too much for their frail constitutions.

One of the hardest things to learn in golf is to say "goodness me," as the person does, so that it sounds like a real curse word. B. C. having demonstrated this, has had an effect on Irish immigration.

SCRIBLIGHTS

A man lends money on faith. He tries to borrow in on hope, and if he gets it, he is generally pretty charitable to himself.

The more a man knows about his own business the more respect he has for the other fellow's.

Being engaged takes more of the average man's time than being married.

In the Fall the leaves fall, but the most noticeable fall is the fall of the coal in the bin.

Drugging a gun through a fence seems to be as effective as rocking a boat.

A discharged teller of the Royal bank at Port William sold up the bank and corralled a healthy wad of bills. His name is Running. The police nailed him within the hour and he is no longer running.

The last Dominion election is notable for the few protest consequent upon it. Alberta was not filed any. Neither Nova Scotia nor New Brunswick. Quebec has five. The Conservatives contest the election of Bureau in Three Rivers and Cardin in Richelieu, and the Liberals contest the election of Mondin in Champlain, Le Garde in Nicolet and Bellin in Maskinonge. In Ontario the ridings of East Elgin, Haldimand and West Kent, with a rose-appel in Norfolk. Many proposed appeals have not been demanded because of the equating system known as "sawdusts."

LOCAL HAPPENINGS

Great weather for the coal man.
Room wanted—by a gentleman. Leave information at the printing office.

One dollar bill pays for THE JOURNAL to Jan., 1913. Hardly two cents a week.

A real estate dealer from Ponoka was in town this week looking for an opening.

The semi-monthly service in St. Monica's Church was conducted by Rev. O. Creighton at 3 o'clock last Sunday afternoon.

A stock of the famous McLaughlin Jumpers and Sleights just received. Call and see them. Imperial Lumber Co. 3-1

Mr. Chas. Francis is busy erecting the fence and the open-air rink and the hockey team will begin their practices on its completion.

Rev. A. W. McIntosh conducted his regular service in Mirror last Sunday evening. The service next Sunday will be held at the same place and time, viz: Steer's Dining Hall at 8 o'clock.

There is some talk of removing the Methodist Church at Lamerton down to Mirror and the change will likely be made before the New Year, providing the necessary arrangements can be made.

Several machinists and boiler-makers are at work in the G. T. P. yards at present and the completion of the round-house, turn-table and water tank is being rushed through. A number of work trains will make this point their headquarters for the next few months and the extensive yards now here will be the scene of great activity.

A G. T. P. construction train passed through town on Wednesday on its way to the end of the steel, 23 miles south of here. They purpose laying about 23 miles of steel. When completed the track will extend 50 miles south of Mirror, leaving about 73 miles to finish. The road is nearly all graded from that point to Calgary and the middle of next summer they should see a clear line through to Calgary. This will mean a great deal to Mirror and the advantages to be derived can hardly be estimated at the present time.

It will probably be an item of news to most of our readers to know that our postmaster is not compelled to make change for you when you make purchases at Miss Canada's office. This is a queer rule that not one in a thousand persons know. Buyers of stamps or any purchases at a postoffice must furnish their own change; i.e., the postmaster could insist on the buyer furnishing his own change if he sees fit to do it; but usually the postmaster is glad enough to get rid of his "chicken feed" and he is always ready and willing to accommodate the public by making all the change it asks for.

The dance given by the Mirror Hockey Club last (Wednesday) night proved a great success and the hockey club have a tidy sum to start the season. Quite a number from Alix and Bashaw were in attendance and the dancing was kept up until the early hours of the morning. About thirty-five couple occupied the floor and a most enjoyable time was spent. The Wooden orchestra supplied excellent music. Lunch was served about twelve o'clock. The management of the Hockey Club wish to extend their hearty thanks to the ladies who donated cakes and in other ways helped to furnish the lunch.

Change of ads. should be in this office not later than Monday evening. Paste this in your hat.

The Rebuilding Sale of the Lamerton Mercantile Co. is still on, and good bargains are the rule.

The quilt made by Miss Mabel Steers and raffled off, was won by Mr. Mooney, an engineer on the G. T. P., 23 being the lucky number. Mr. Mooney was fortunate in making the last draw out of one hundred slips and is now the owner of a dandy quilt, for the small sum of two bits.

THANKS.

First issue of Mirror (Alberta) Journal is at hand, dated Nov. 2nd. The firm name of Good & Ballantyne appears as publishers, with W. J. Good as the manager. It is a most respectable issue, six columns in page and well filled with ads., showing excellent support by business people of a live town. The paper gives every sign of prosperity, and as a newspaper, is rather above the standard of beginners.—Emerson Journal.

BOARD OF TRADE.

The weekly meeting of the Mirror Board of Trade met in the Bank of Toronto rooms last Tuesday evening. There was a good attendance of members, and the business before the Board was the lightest on record.

President Roy occupied the chair, and on motion of C. F. Bentley, seconded by J. N. Mitchell, the minutes of the last meeting were adopted.

Two new members joined the Board of Trade, in the persons of Mr. J. P. Bailey and Mr. C. A. Wilson.

A letter from the Western Brokerage and Business Exchange was read and the Secretary was instructed to write the above mentioned firm re grain buyers. It was also decided to consider their letter further and a more comprehensive answer given when the Board next meets.

The Secretary was authorized to write the Railway Commission in regard to certain matters in connection with the facilities for shipping, etc.

Mr. McCordell was instructed to procure several copies of THE MIRROR JOURNAL and forward them to J. H. L'Amey, Calgary, to display at Calgary Land Show.

The Secretary was also granted permission to draw a certain sum of money for the payment of incidental expenses and to keep a record of same.

A proposal to hold some kind of entertainment in the near future was introduced and although nothing definite was decided on, the final arrangements will be made at the next meeting. It will probably take the form of a supper or social, and the Board will extend an invitation to all who are not yet members in town, as well as the farmers in the vicinity.

Board then adjourned to meet in the Mirror Hotel next Tuesday evening, Nov. 21.

AROUND THE D.S.'RICT.

The Quebec bank is opening a branch in Alix.

A water and sewer system is being installed in the residences in Camrose.

An effort is being made by Alix to have the R. N. W. M. B. barracks repaired, and a petition is being circulated to that effect.

A Chinese bank may be established in Edmonton.

Rev. Robt. Dewar is the new minister in charge of the Presbyterian Church in Alix.

The town of Millet wants a newspaper and its Board of Trade is advertising for one.

Rev. Mr. Creighton is endeavoring to form a Reading Room and Club for the young men in Alix.

The Queen's Hotel at Tofield has changed hands, Mr. McDonald, of Innisfail, being the new proprietor.

Mr. R. B. Bennett, of Calgary, has resigned his position as chief counsel for the Canadian Pacific railway in Alberta.

Calgary collieries, about five miles from Delburne, will ship coal via the G. T. P. the first of December to Calgary and other points.

The final returns of the civic census of Saskatoon issued from the board of trade office show a population of 18,000. It was thought by the first reports that 19,000 would be reached but the checking up revealed a number of duplications. The Dominion census gave the city a population of 12,000.

A band has been organized in Camrose with a start of eight members. The instruments being used are owned by the town.

The C. P. R. train schedule on the Lacombe branch changed on the 1st of November. The morning train arrives at ten o'clock, and the afternoon at ten minutes past two.
